**Assignment 0123 Feedback**

Proficiency *1a* can only go as high as | in this assignment because, well, we've only just begun. Future assignments will build you up to a + eventually.

*1a* — Looks like you're well on your way to a decent level of command line proficiency. As for your DIY repository, I never was told where I can find it...? Can't give full proficiency without that. (/)

*4d* — No problems with looking up information and restating them. (+)

*4e* — You have a single commit—this is marginally acceptable for this assignment due to its relatively small scale, but make sure to work more granularly in the future. (+)

*4f* — Assignment mostly done on time, but DIY repository is currently unaccounted for. (/)
